Machine operator in 3-shift system

Hörisch-Präzision GmbH is an owner-managed family business based in Apolda, Thuringia. But the precision turned parts we produce find their way all over the world. Whether in automotive, watchmaking and electrical industries, in electronics or in medical and security technology - you can rely on the precise quality that is Hörisch. This is made possible not only by our state-of-the-art production machines, but above all by our team of over 80 experienced employees. And maybe you will soon be one of them:

We are looking for an accredited

toolmaker, cutting machine operator, CNC lathe operator or machine setter (cutting technology)

Your tasks include:

- setting up and operating one or more machines and systems on your own responsibility, including preparation of tools
- continuous monitoring of the production process, detection of errors and troubleshooting
- carrying out maintenance and inspection work as well as minor repairs
- checking and ensuring the operational quality specifications

Your profile:

- completed training in one of the above mentioned professions
- work experience in the field of plant operation and troubleshooting in the event of a fault message (desirable, but not a must)
- process-oriented and structured way of working, combined with a sense of responsibility and independence, flexibility and ability to work in a team
- A2 German skills desirable, but we offer long-term training and support in the acquisition of B2 German
- willingness to work in a 3-shift system (6-14 h, 14-22 h, 22-6 h / Mon.-Fr. / time off during the week)

Da es sich um eine Schichtarbeit handelt, ist ein Führerschein von Vorteil, jedoch nicht Bedingung.

We offer:

- an interesting and varied job in a company that has enjoyed stable growth for years
- a job-specific induction with experienced mentors at your side
- a helpful and cooperative team
- long-term employment prospects and opportunities for advancement
- appropriate salary and additional social benefits

Are you interested?

Please send your detailed application documents by e-mail to Mr. Schäfer (a.schaefer@hoerisch.com), stating your earliest starting date and your salary expectations.

We look forward to hearing from you!
